

Ceres at Climate Week - Boston Sponsorship Opportunities

May 3-10, 2026

Boston's leadership in innovation, higher education, and finance creates a powerful environment for elevating climate action and advancing solutions at scale. At Boston Climate Week, Ceres will bring together businesses, investors, and community leaders through curated sessions and high-impact discussions that highlight emerging climate strategies, accelerate clean energy investment, and support policies that drive a just and thriving transition.

By joining Ceres as a sponsor, you'll gain a visible platform to demonstrate your climate leadership, connect with a network of forward-looking peers, and help shape the dialogue on building a more sustainable and resilient economy.

Premier Sponsor | \$20,000

As the Premier Sponsor, your organization plays a foundational role in making Ceres' Boston Climate Week convenings possible during this inaugural year. This level offers the highest visibility across Ceres' Climate Week Boston communications, digital and onsite signage, and program materials, along with a featured speaking opportunity during a Ceres-led session or convening, positioning your organization as a leading supporter of Ceres' mission and impact.

Reception Sponsor | \$15,000

As a Reception Sponsor, your organization helps enable one of the most valuable aspects of Climate Week Boston: bringing people together. This opportunity supports a Ceres-hosted reception and includes logo placement across digital and onsite materials, as well as a featured moment for brief remarks, highlighting your commitment to collaboration and climate solutions.

Sustainability Sponsor | \$5,000

The Sustainability Sponsor level provides a flexible, accessible way to support Ceres' Climate Week Boston programming and help ensure these critical conversations can take place. Sponsors receive logo recognition across digital and onsite event materials, demonstrating support for Ceres' convening work and climate leadership.
